WHY me?

From dreaming about becoming a pop star as a child in Russia.. djing in the heart of Paris and Ibiza's pulsing nightlife.. singing live in the underground clubs of Oslo.. having my first festival gig at a decent island.. taking in every melody while watching the movies I adore.. releasing my first album to learning to produce cinematic and orchestral music. My name is Aleksandria Migova, and my life experience has shaped both me and my music. I'm an adventurous woman currently based in Sweden, looking to create the next big music experience, keep evolving, and be part of a new journey.

I'm a modern cinematic composer/producer, not afraid to mix styles, and I would dare to say I'm diverse when it comes to my creations. I can deliver everything from moody and evolving soundscapes, uplifting melodic beats, full orchestral arrangements to super-epic larger than king kong trailer beats. Except for working on six soundtracks and an album, I have many years of experience working with game trailer/promotion music, including sound design and mixing. I'm mindful, organized, loyal, fearless, and a genuine people person. I'm a fast learner, a good listener, and I speak six languages.
