new day in America and I want to
say to these scientist thank you
so much giving up us the
privilege for using these robots
and I hope to use these robots
against the Soviet Union, Nikta
Khrushchev, & against Castro. I
believe these robots will send a
message to our enemies that if
you hurt America, we will strike
back and as our president I will
do whatever it takes to whip the
soviets off the face of the earth
and we choose to have technology
not because of violence but
because it opens up doors for our
children and it is great wonders
of the world and it will also
open up the door for greater
accomplishments. I will send a
message to the members of the
congress to approve 90 robots to
get them ready for any type of
war we have with the soviet
unions. Thank you god bless you

good evening my fellow citizens this government, as promised has maintained the closest surveillance of the Soviet military buildup on the island of Cuba. Within the past week, unmistakable evidence has established the fact that a series of offensive missiles sites is now in preparation on that imprisoned island.

JOHN F KENNEDY (CONT'D)

The purpose of the these bases can one other then to provide a nuclear strike capability against the western hemisphere. Upon receiving the first preliminar hard information of this nature last Tuesday at 9AM, I directed that our surveillance be stepped up, And having confirmed and completed our evaluation of the evidence and our decision on a course of action, this government feels obliged to report this news crisis to you in fullest detail. The characterstics of these new missile sities indicate two distinct types of installations. Several of them include medium ballistic missiles, capable of carrying a nuclear warhead for a distance of more then 1,000 natircal miles. Each of these missles in short is capable of striking Washington DC, the panama Canel, Cap Canaveral, Mexico City or in the caribbean area.

The path we have chosen for the present is full of hazards, as all paths are; but it is the most consistent with our character and our courage as a nation and our comitments around the world. Yes I am Ted. Ted, it's amazing how last night we didn't end up dying from the evil monster that attacked this house.

TED SORRENSON

I'm glad we didn't either. How are you holding up sir?

JOHN F KENNEDY

Fine I guess, but...I have been through worse and Jackie was able to give me medicine to help me recover so everything is all right.

TED SORRENSON

Jack, Do you ever ask yourself what the world is going to be like when you are not here anymore?

JOHN F KENNEDY

Ted, I wonder that every single day and I know this country might have some challenges but I think we will always find a way to get through it. As long as god is with me, anything is possible.

President Kennedy gets up and he starts heading to rose garden to deliver his speech.

The president gets to the podium and cameras of the 1960's start flashing in his face and the news cameras start rolling.

JOHN F KENNEDY (CONT'D)

Good Evening my fellow citizens and my fellow americans. Last night, our nation was attacked by evil robots that were built by Burton Sahad and New York City and Washington D.C. was attacked. But as people of this country and as a nation, even though there maybe challenges in this world, I always believe as your president

(CONTINUED)

JOHN F KENNEDY (CONT'D)
wheather you are repuplican or a democrat. I always believe in the chracter and good will of our people that we can always get through anything wheather it's a terroist attack or un-justice laws. For the cities of New York City and upstate New York we stand with you and we pray for you. It's the job that we all come together to make our country safe for not only ourselves for the millions of un-born citizens and new generations to come. Right now we are in a strange, confussing time in our country's histroy where we challenged by the communists in Russia and other countries that practice this way of thinking. We are also challenged by all the horrible things that are going on in the South with African-Americans are constantly going through discrimnation in places like Alabama, Mississippi, Georgia, and Louisiana and in Texas. I feel what is happening down there just awful and really sad. It's the biggest reason in this election year 1963, all of you will go to the polls and if you have friends that are african american. I want you to close your eyes. Are they better off then they were 7 years ago, is it easier to go places like it was 7 years ago? if the answeare is no then the trust is clear, from the news footage.

JOHN F KENNEDY (CONT'D)
we must pass Civil Rights legitlitation if we are the country that we say we are. In the words of Abraham Lincoln "A house divided against each other cannot stand" that is still true to this day. And I ask the members of the congress republicans and democrats that we must start creating Civil Rights legislation but for not only african americans but for all races that come here and want to start a family and bring buisness here.

(CONTINUED)

JOHN F KENNEDY (CONT'D)
And we must do this if we want to
be known as the land of freedom
and oppertunity. Thank you and
god bless all of you, and god
bless the United States of
America.

LYNDON JOHNSON

Well with the robots I'm sure we will take down the Russians.

JOHN F KENNEDY

But it just can't be with military force. There has to be another way Lyndon. And also, we shouldn't be thinking about 1962, we should be thinking about the year 2016...we will both be dead by then and I want to leave a legacy behind as president.

LYNDON JOHNSON

Mr. President I will do what ever I can to make sure the congress approves your bill. Also next year we must get ready for election year. I have a huge feeling we are going to win.
