PERSONAL

I have 15 years of study in all aspects of the film industry, including concept development, financing, contracts and physical production. I am a motivated film production crew member experienced with independent and studio-funded web projects, as well as feature-length films. I am also an exceptional screenwriter that excels at concept development and delivering compelling stories. Film and television production is what I live and breathe. My passion is to become a performer in acting, but I know that I have a lot to offer the film, television and radio community. I've studied all aspects of this business. I am anxious to learn and will be willing to start at the entry level.
