PROFILE: PRODUCER

Originally from Mexico, I became a Canadian citizen 9 years ago. I strive to create intriguing and visually striking stories through mesmerizing horror and fear of the unknown. Creating opportunity for true diversity in story telling is a priority. I believe in impacting the future of the workplace towards an empowering and uplifting scene for all to be heard and appreciated.

I have a keen sense for organization and effective communication. Being proactive and attentive on set is a necessity for me. I've developed sharp scheduling and safety awareness through my course at VFS. Being resourceful and reliable are some of my top strengths, as I always go the extra mile for the projects and the team.
